

## Veneers

**Dental veneers offer a fabulous result if you are looking to improve the shape, colour or overall cosmetic appearance of one or more of your front teeth.**

Your situation can be greatly improved with the application of dental veneers. Not only your appearance but also your self-confidence and esteem can be improved. This is mainly due to the tooth-like material that is used and the detailed custom fit. Only the highest quality porcelain is used to offer a natural look and feel once carefully cemented to the outer surface of your tooth.

Once your treatment is complete, we will advise you of a careful cleaning routine to ensure the longevity of your new smile. We will also recommend regular visits to us to ensure that your veneers are kept in the best possible condition.

### About Sure Dental

Following the philosophy of our principal dentist Dr Ralph Kelsey, our aim is to prevent dental problems.

We encourage regular professional examinations. This allows immediate attention to potential problems and ultimately helps to keep your dental care costs to a minimum.

In addition to this philosophy, we offer complete dental treatment using the latest technology and most advanced materials.
